

## BRANDRETH'S PILLS.

The remarkable cures which have been effected by Brandreth's Pills, have astonished the medical faculty, many of whom have conceded that they are the greatest blessing that ever was given to the world.

The reason these celebrated Pills have such a universally good effect is because their action harmonizes with the human body.

"Purge out thy old levan, that ye may become a new lump," is the language of Holy Writ, a figure applied spiritually, it is true; but how could it have any application unless confirmed by practical experience in the body of matter. The foundation upon which this figure of scripture rests is as immovable as the laws which govern the tides, or that occasion the Thunder of Heaven.

### The Condition.

The condition upon which God has given health to man is a constant care to keep his stomach and bowels free from all morbid or unhealthy accumulations. The means to effect this must be those remedies which cleanse the system and purify the blood.

Good healthful medicine is only a species of food; when the mind, whose habits we have the means of observing, are sick, they wan through the fields, and make selections of those herbs which are in their nerves and purify their fluids, which immediately restore their health.

When a dose of Brandreth's Pills are taken, they are digested, and pass to every part of the system, but they leave the body when they have effected the intended purpose, and health and vigor are by them restored.

Mineral medicines may enter the system; but they are with difficulty got out again; and they always occasion pain and misery while they remain in the body.

Whereas Brandreth's Pills are as innocent as a piece of bread, and are avenged with the disease for which they are taken.

From the time we are born to the time we cease to breathe, our bodies are constantly wasting, and are constantly building up. The action of the atmosphere wears or wastes them. The food we eat digests, or converts organs into blood, which renews or builds up by its circulating power. Thus the human body is healthy when the blood circulates freely, and when anything prevents its free course throughout the veins, disease commences.

Costiveness, Dyspepsia, Fevers, Inflammations, are all owing to this, and all the troubles attending them could always be prevented by the timely use of Brandreth's Pills, as their very action tends to clear the circulation of all impurities, and remove every cause or occasion of impurity from the blood.

There are thousands—nay, millions—at this moment, in this country, and all others, whom we may consider as half-dead. They may be said to carry their death in their bowels and circulations. This is no imaginary circumstance. I wish it were. The thousands whom I see every where with emaciated looks, yellow skins and green eyes, speak in a language not to be mistaken, of the state of their stomach and bowels, and the consequent condition of their blood. The body is thus, while in life, reduced to the condition of a corpse and the reason why some bodies are soon in a putrid condition after death, is more from the quantity of impure humor contained in them at the time they expire, than from any other cause. And who is there that will not allow that if Brandreth's Pills had been employed, so as to have removed those impure humors, that life might not have been saved? Whoever will but give this subject a very little consideration, will at once perceive the perfect identity between the putrid humors of the body before death, and the humors which occasion the peculiar flavor of a dead body.

STATE LABELS FOR the Brandreth Pill Boxes

These labels are of the most costly, and at the same time most ingenious style. The top label has over ninety thousand lines upon it which is made to represent the most minute net work. The lower part of the box is very prettily designed, and contains an innumerable number of wavy lines. And these words "see that labels on this box agree with those on the certificates; no others are genuine. The side of the box is beautifully engraved, and contains the following inscription, no Brandreth Pill is genuine unless the last three of five initials signature upon it."
